

Customized Anesthesia Solutions

Apollo Medical Group provides turnkey anesthesia solutions for ambulatory centers and hospitals. Apollo's founders have served as hospital leaders in optimizing efficiency and quality in the operating room, including implementation of regional anesthesia for total joint programs. We are 100% physician owned and are committed to the highest quality care in a safe, efficient environment.

Whether anesthesia services are required for a new or existing facility, Apollo will customize a solution that fits your needs.

OUR SERVICES

AMBULATORY ANESTHESIA

Ambulatory centers require a combination of anesthesia providers, surgery center staff, and surgeons to work together as partners in order to control costs and enhance revenues. Apollo will provide the necessary staffing and leadership oversight to achieve this goal while delivering quality patient care.

HOSPITAL ANESTHESIA

Apollo's leaders have the hospital experience necessary to maximize efficiency and quality of care while providing a seamless anesthesia transition. Our customized clinical approach, combined with optimized billing and collections, will help reduce or eliminate subsidies while increasing service lines, O.R. volume, and overall patient satisfaction.
